

JENNIFER KAMMEYER
COMMUNICATION COACH

Team Coaching

Improve Cohesiveness

Increase Efficiency

With inclusive interactive techniques, Jennifer coaches teams to achieve greater effectiveness so they can leverage all members' strengths and reach peak performance.

Coaching is customized to meet specific team goals

- Increase Team Unity
- Resolve Unhealthy Dynamics
- Hold Inclusive Discussions
- Consistently Communicate Messages

Strategy Sessions

For updating branding, improving current processes, or developing new offerings, I help teams generate creative ideas in strategy sessions. In the brainstorming process we use inclusive approaches so all members' voices are heard and the best ideas are captured.

Business Planning

I provide the structure so leaders can focus on the content for business planning. Looking into the future and setting plans requires deep thought and full engagement that cannot be achieved if one member of the team is also the facilitator.

Off-site Meetings

Leaving day-to-day work behind, off-site meetings can foster creativity and build team spirit. Facilitating discussions and activities, I leave all team members free to actively participate and engage with each other.

"Offsite meetings with Jennifer facilitating are both productive and fun. She makes sure everyone contributes and that our team objectives are met."

- Founder, technology communications company
